for module 1

Module 1 | Practices
Models & Principles

Module 2 | Processes
Power & Decision-making

Module 3 | Implementation
Training

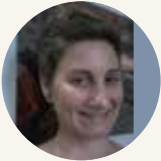

Michelle Banfield (ACT)
(ACACIA ANU)

Jennifer Bibb (VIC)
(Co-Design Living Labs UoM)

Victoria Palmer (VIC)
(Co-Design Living Labs UoM)

Noelene Armstrong (NT)
(NT Lived-Experience Network)

Alyssa Morse (ACT)
(ACACIA ANU)

Grenville Rose (NSW)
(Consumer Led Research Network)

Michael Wright (WA)
(Debakarn Koorliny Wangkiny)

Margaret O'Connell (WA)
(Debakarn Koorliny Wangkiny)

i-LEARN is a three part virtual learning studio that introduces people with an interest in Integrated Lived-Experience Applied Research Nationally to practices, processes and the implementation of a framework to support mental health translation research. There are three learning objectives for Module 1:

1. Understand the core foundations of lived-experience applied research models and the approaches across different settings and contexts
2. Become familiar with 'a starter kit' to develop principles of research practices appropriate to context
3. Introduce an integrated lived-experience applied research framework to support mental health research translation across contexts.

Topics covered in Module #1:

- An Integrated Lived-Experience Applied Research Framework
- A Starter Toolkit for Research Contexts
- Flexible, meaningful roles and involvement
- Ethical issues in integrated lived-experience research practice
- Interactive and self-paced learning
- Mature Models - ACACIA, Co-design Living Labs, Consumer Led Research Network, Northern Territory Lived Experience Network, Debakarn Koorliny Wangkiny Co-design and Co-Research with Elders and Young People
- What happens when it does go wrong
- First stage principles for implementation of an integrated lived-experience applied research framework for translation

This module is delivered in partnership with:

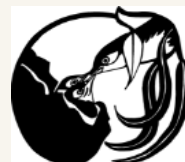

Co-Design Living Labs
Victoria

ACACIA
Australian Capital Territory

NT Lived-Experience
Network
Northern Territory

Debakarn
Koorliny Wangkiny
Western Australia

Consumer Led
Research Network
New South Wales
